

AMENDMENTS TO THE SPECIFICATION

Please amend previously amended Paragraphs [00013] and [00014] of the Specification. as follows:

[00013] FIG 2 shows the second embodiment of the invention, the earring clip can have an LED light (16) secured to the earring clip that automatically lights up the hook (12) in dim light by a switch (20) secured to the earring clip. Alternatively, the LED light (16) can be a blinking LED light. The blinking light version can shine on the food and can attract a buyer's attention to the food on the hook of the earring. In the embodiment of FIG 2, three food items, (14,) (14a) and (14b) can be put on each of the hooks, (12) and (15), (24) and (22).

[00014] The invention is not considered to be big. In a preferred embodiment, the hook is between 1.5 inches and 3 inches in overall length. One of the ~~The~~ hooks (15) preferably has at least a first prong (22) and a second prong (24) for engaging at least two food items (14a, 14b).

Please amend Paragraph [00018] of the Specification as follows:

[00018] FIG 3 shows still another embodiment of the candy and vegetable display item. The earrings could include a line (19) between the clip and the hook (12). The line is used to connect the hook to the earring clip. Another hook (24) (15) connects to the line further from the earring clip than the first hook (12), such that the hooks are connected in sequence. Candy (200) can be hooked onto one hook ~~(24)~~ (15) or alternatively onto both hooks (12) and ~~(24)~~ (15).
